This cotton is a selection from our **“HUMCO” Dixie 14-Strain 3 Cotton** and is in every respect like **Strain 3**, except it has shown **SLIGHTLY EARLIER** and a **HEAVIER PRODUCER**.

This cotton is especially adapted to light-wilt lands, as it is slightly larger growing than other strains of **Dixie** and will make good growth on poor lands.

A WARNING

Do not plant Wilt Resistant Varieties of Cotton on lands heavily infested with Rootknot and expect all the plants to live. Plant such land to crops not affected by Rootknot for at least three years.

semi-wilt strain, **STRONG IN RESISTANCE TO WILT**, but is not recommended for the worst wilt lands. It will stand up pretty good on lightly infested lands.

CERTIFIED SEED

These are seed grown from **Pedigreed Stocks**, one and two years from breeders, grown and handled under our observation and supervision. **WE KNOW THEM TO BE RIGHT**, and certify them as to purity and germination as represented.
